

Hi, my name is  Alexey Gornostaev and currently i work in video game space and help create media and recommendation products.

Over the past 10 years i was responsible for creating and developing a video games digital distribution service, mobile in-game social and support platform, video games media with an audience of more than 5 million people and co-founded a [video game discovery site](#) (think the movie diary Letterboxd meets IMDb).

I am interested in technology, product management, inspiring new products and people behind them. You can follow me on [Twitter](#), read at [Medium](#) and here in the [posts archive](#) (in Russian), [send me an email](#) or direct message via Twitter.

Wonderful  [trudi.dog](#) is part of our family.

Cheers!
